PROFILE

- Passionate data scientist and programmer pursuing an MSc in Data Science (GOI-IES Scholar, top 1%) at SETU, Ireland. 2.5 years of hands-on experience in data analytics, machine learning, and app development.
- Strong skills in Python, Flutter/Dart, Tableau, Firebase, and ML libraries.
- Currently writing a dissertation on developing a semi-supervised learning model for galaxy redshift estimation.
- Proven impact through real-world projects—from a COVID plasma donor app to a full-stack student guidance mobile app.
- Seeking part-time or full-time roles in data science and R&D. Fully work eligible (Stamp 1G visa, no sponsorship required).

TECHNICAL SKILLS

Top Languages

- **Python:** Used in current university curriculum for ML research and coursework, as well as side projects such as ML Models, LLM chatbots, and fun pet projects and scripting.
- **Dart:** Developed five apps using flutter; two published to playstore.

Technologies

- Astrominformatics, SQL, Panda/numpy/scikit-learn, google colab/jupyter notebook, Firebase, AWS Services, MongoDB
- Deep-learning and ML algorithms (XGBoost, CNN, LLMs such as GPTs, Sonnet and LLaMA).
- RStudio, Tableau, Excel/CSV/JSON, meta ads analytics, automation with Zoho, webRTC on iOS and Android with videoSDK.live, postman, VSCode, Android Studio, Figma
- Dabbling in beginner level web development with Javascript, React and FASTAPI.

EDUCATION

South East Technological University (IT Carlow), Ireland

Sept 2024 - Oct 2025

Master of Data Science

- GOI-IES Scholar, University Ambassador and Class Rep
- Dissertation- "Evaluating and Refining the Efficacy of Pseudo-Labels for Galaxy Redshift Estimations in a Semi-Supervised Learning Model"
- Current GPA: 78

Jagran Lakecity University, Bhopal, India

July 2019 - Dec 2022

Bachelor of Computer Application

- Amongst the class toppers
- Created 3 flutter apps
- CGPA: 8.32

St. Joseph's Convent School, Bhopal, India

2007 - May 2018

Higher Secondary School

- Fields: commerce + computer science
- Very active in extra-curricular activities
- Final Percentage: 77%

WORK EXPERIENCE

iKounselor Ed-Tech

Jan 2024 - Jun 2024

Data Analyst and Developer

Bhopal, M.P., India

In charge of extracting data from CRM platforms, Meta ads and creating comprehensive reports and analysis to form strategies and alter target audiences for marketing purposes.

Meanwhile, also developed the iKounselor app for iOS and Android that helped students find instant counselling and study abroad information. Developed python scripts for data mining and writing on database.

Technologies: Python Scripting, matplotlib/pandas, Google Colab, Tableau, MongoDB, Dart/Flutter, API (REST), Firebase, Android and iOS development, Postman, Figma

Fea Art

Apr 2023 - Present

Online Freelance Business

Online

Small scale online side-business for digital art I created. Sold on platforms like Kofi, Etsy, Gumroad.

Technologies: Clip Studio Paint, Photoshop, Online Store Sales

Twilearn EduTech Pvt. Ltd.

Jan 2023 - Mar 2023

Data Science Intern

Remote

Trained for data analysis & presentations. Created two with tableau dashboard projects with FIFA World Cups over the years and HR analytics.

Technologies: Tableau, Google Colab, Python, matplotlib/pandas, excel/csv/json

Young Unitee

Jul 2022 - Dec 2022

Data Research Intern

Bhopal, M.P., India

Collection of market data for target demographic for pools such as current interests, trends, education levels, enquiries etc.. Created a collection of data to be sorted and uploaded into database.

Technologies: Excel, Python, Jupyter Notebook/Google Colab, Data Analyses/Statistics

Slinkshot - The first Gaming-only Social Network

Jul 2021 - Apr 2022

Flutter Developer Intern

Italy - Remote

Adroid app development, performance, functionalities, API, UI and data management. Managed the app alone for a few months as well and rolled updates. Experience in working with a completely international team from all over the world.

Technologies: Flutter, Data Science, Data Analytics, Android Studio, Android Development, Android SDK

PROJECTS

LLM Chabots (untitled)

Apr 2025 - Present

Python, React, FASTAPI, Sonnet 3.7

Side project to create AI chat bot website using large language model from Claude.

PlasmaLead-India's Plasma Donation App

Mar 2021 - 2023

(Flutter/Dart/Android) Google Playstore App

Social welfare app where recovered covid-19 patients can donate their plasma to help others recover. Helped hundreds to find plasma donors during the peak of covid-19 pandemic.

AWARDS

GOI-IES 2024 Scholarship

Government of Ireland - Higher Education Authority, Ireland

June 2024

Top 1% (60/5800) applicants. The GOI-IES is aimed at top-level international students which rewards students with a full stipend and complete fee waiver for one year.

Silver Medal (School Topper)

Silver Zone Foundation

2015

Won silver medal for the International Computer Science Olympiad at school level.
